

Nursing and Midwifery Exchange Program

A workforce Initiative that aims to collectively strengthen the workforce of Queensland Health in rural and remote areas

An opportunity for Nurses and Midwives to experience what rural and remote nursing has to offer!

A chance to build a clinical and a support network for staff across Queensland!

To date we have exchanged 56 nurses and midwives across Queensland

NMEP team support the staff to experience staff during the exchange

Research conducted for the impact that this program is having on resilience for staff
